## January 2017 - Work begins on site

Work has already begun on the land. The most auspicious task is to bring the 24 feet Maitreya Buddha statue from Bodhgaya, and to ceremonially receive Maitreya onto the land in Kushinagar. This will happen in late January following the Kalachakra Initiation in Bodhgaya. A temporary temple will be constructed to accommodate Maitreya as well as statues, texts, and other religious art works that have been patiently awaiting the chance to manifest on the Kushinagar land.

## Moving Maitreya to Kushinagar

The magnificent 24 feet statue is a key part of Maitreya Project's history. The fascinating story of the statue's creation will be posted separately.
